### Invitation

We are pleased to invite you to our **Next B2B Forum** | [Urban Impact: Towards a Circular Economy in our City](#).

**Urban Impact** by the **Global Shapers Frankfurt Hub** creates a platform for thought leaders to shape the future of our cities in light of megatrends like urbanisation and climate change.

With this edition, we engage stakeholders on the future of cities with respect to their increasing need for **resource efficiency and circularity**. The unique focus is on **scalability**, examining how we can enable practical and scalable **circular solutions** that put citizens onto the centre stage.

Building on the World Economic Forum white paper “[Circular Economy in Cities: Evolving the model for a sustainable urban future](#)”, we engage **policymakers, corporates and startups**. By shaping the conversation on circular economy in cities, we aim to generate action and channel specific policy asks.

***Cities are the future. Let's shape them together in a sustainable, scalable, and inclusive way!***

Best Wishes,  
Global Shapers Frankfurt Hub
